May 18 Members’ Meeting

Revisiting the Past: The Reinterpretation of Wetherburn’s Tavern

Conservator Catherine Anderson, of the Colonial Williamsburg Foundation, will reveal the results of painstaking research in the interpretation of Wetherburn’s Tavern. Past visitors to the historic area will note that the foundation has altered the interpretation of many of its historic sites over the years. Material analyses, archeological finds, and historic documents have replaced conjecture, and this new evidence has informed changes to the historic area. Wetherburn’s was previously restored in the 1960s, when museology, conservation, and historic preservation were still very new fields of inquiry. Ms. Anderson, a graduate of the University of Delaware/Winterthur graduate program in Art Conservation, will guide us through the changes made over the years, explaining the current furnishings plan as well as the preventive conservation measures used to protect this site.
